

## 11<sup>th</sup> International Conference on Toxic Cyanobacteria Kraków, Poland from 5 to 10 May, 2019

### ICTC 11 - Kraków, Poland from 5 to 10 May, 2019.

International Conference on Toxic Cyanobacteria (ICTC) is a periodic summit of an international community focusing on the study of cyanotoxins and toxic cyanobacteria. Poland was chosen as the venue of the next ICTC by the participants of the conference in Wuhan in 2016. The five-day event includes interactive sessions and lively discussion panels which promote active scientific exchange and communication between scientists and students. This event will feature recent findings from leading academic experts in the field in the form of lectures and posters. Participants will have the opportunity to gain hands-on experience from the experts on the subject and to network with other enthusiasts.

The theme of this year's ICTC 11 is: **"Learning from the past to predict the future"**

Don't miss this unique opportunity!

On behalf of the Local Organizing Committee, we cordially invite you to attend the 11th International Conference on Toxic Cyanobacteria to be held in Kraków, Poland from 5 to 10 May, 2019.

### Scientific sessions

- Detection, identification and diversity of toxic/invasive cyanobacteria
- Toxic cyanobacteria in the context of climate changes
- Ecology of cyanobacteria, abiotic and biotic factors in the regulation of cyanobacterial growth and/or toxin production
- Secondary cyanometabolites – structure, biosynthesis, physiological function, environmental significance and biotechnological application
- Cell physiology and molecular biology of cyanobacteria
- Toxicity and harmful effects of cyanobacteria and their metabolites
- Risk identification, water management and toxin removal
- New tools, new methods, most original findings and hypotheses
- New generation of scientists – fresh view and original ideas (session dedicated to participants up to 35)

## Venue

The event also includes excursions and off-site visits with the aim of giving the participants a wider insight about the heritage of Kraków and Małopolska region. The royal capital city of Kraków is the spiritual centre of Poland with rich heritage. Krakow's Old Town, along with Wawel Castle and the city's Kazimierz district found their place on the First World Heritage List, created by UNESCO in 1978. The city is home to Polish intellectual and artistic elites and is a magnet for the young. Students and young Polish professionals as well as a growing international community are drawn to the city.

## Registration and Accommodation

The online registration form will be available from June 1, 2018. All participants will be asked to fill out the form below. An email confirming your registration will be sent to you once the process is complete.
